855.BASS510 (227.7510)

Our mission is to bring musicians around the world revolutionary products that deliver performance, reliability, and portability – all in the most condensed package physically possible. We are here to set trends, not to follow them.

PHIL JONES BASS The staff at PJB shares my passion to build only the best. That does not mean the most expensive.

We are dedicated to giving our utmost in quality, value, and service to the discriminating musician.

BIGHEAD HEADPHONE AMPS

Bighead (HA-1) Mobile Bass Amp

Mobile Amp and Audio Interface

The PJB BigHead is not big at all. In fact it is barely larger than an iPhone. The “Big” is about the sound. It functions first as an awesome bass headphone amplifier with a 2 band EQ set for optimization of all kinds of bass instruments.

Unlike consumer electronic MP3 players and smartphones that have very small power output of around 20 milliwatts to drive headphones, the BigHead has more than 10 times the power. This contributes to a far more exhilarating listening experience with increased resolution and dynamics.

Bighead Pro (HA-2) **NEW**

Mobile High Performance Multi-Function Headphone Amplifier/Digital Audio Interface

The HA-2 is the second model in the Bighead series and is a step up model of the popular HA-1 Bighead with added technology and features.

The HA-2 is a high resolution USB audio interface that supports PCM playback with up to 384 KHz sample rate/24 bit resolution. On DSD playback, sample rates of 2.822MHz and 5.644 MHz are

supported, making it the ideal choice for musicians and engineers that desire high performance and the purest sound quality.

BASS AMP HEADS

BP-400

Lightweight and affordable, the BP-400 produces a punchy 350 watts from a small chassis that weighs only 2.9 lbs

Power: 350 Watts, Controls: 5 Band EQ, Limiter w/On-Off Switch, Master volume Jacks: Input, Headphone, FX Send/Return, Preamp Out, Speaker Out, D.I. Out Dimensions (WxDxH): 9.6 x 7.6 x 1.7 (inches) Weight: 2.9 lbs

BP-800

Small and lightweight just got more powerful with the BP-800 bass amplifier. The BP-800 is a high power, high performance no compromise compact amplifier for all playing situations. It delivers the most bass for the buck and weighs only 5.7 lbs and is 7.5" wide

Power: 800 Watts, Controls: 5 Band EQ, Input: 1 x Input , 1 x mini Sw(Mute/Low/High) Output: Speaker-Out, DI-Out, Line-Out, Headphone-Out, Dimensions: 7.5 x 12.5 x 2.5 inch (WxDxH) Weight: 5.7 lbs

D-1000

For those players with high power needs, the D1000 combines high power and natural tone in a light weight box. 500 watts at 8 ohms and 1000 watts at 4 ohms the D1000 is the ultimate amp for any gigging situation.

Power: 1000 Watts, Controls: 5 Band EQ, Limiter w/On-Off Switch, Master volume Jacks: Input, Headphone, FX Send/Return, Pre-amp Out, Speaker Out, D.I. Out Dimensions (WxDxH): 11.7 x 10.3 x 3.3 (inches) Weight: 5.3 lbs

M-500

PJB's Flagship Bass Amplifier aka "The Velvet Hammer." The M-500 is a single one channel power house with ultimate tone shaped by the 12-band graphic EQ and 3 band parametric EQ.

Power: 720 Watts, 12-BAND Graphic EQ, Input: 2 x Input (Passive, Active), Line-In, Volume Pedal, Headphone, Output: 2 x Speaker Out, 2 x Preamp Out, D.I. Out(GND Lift SW, Pre-Post) Dimensions: 16 12.5 5.5 inch (WxDxH) Weight: 41 Lbs

BASS COMBO AMPS

Micro 7 (M-7) **NEW**

Tone-to-go just got more portable and affordable with the Phil Jones Bass MICRO 7 combo. The MICRO 7 is a single channel 50 Watt bass combo with a 7" driver and 3" tweeter. It measures less than a foot on all sides and weighs only 15 lbs. It is the most affordable and compact combo from PJB yet.

Power: 50W (RMS) Speaker: 1x7-inch speaker and a 3" high frequency transducer Controls: Input volume, Master, 3-Band EQ (Treble, Mid, Bass) Dimensions (WxDxH): 12 x 9.7 x 9.8 (inches) Weight: 15.5 lbs

Session 77 (S-77)

The Session 77 is the result of our efforts to build a budget conscious amp without giving up our quest for quality. Focusing on the most basic needs of most bass players, we achieved the goal of having the best sounding, most reliable amp at an unbeatable price.

Power: 100W (RMS) Speaker: 2 x 7" Proprietary PJB woofers + 3" tweeter Controls: Input volume, Master, 3-Band EQ (Treble, Mid, Bass) Jacks: Input, Aux Input, Preamp out, Headphone, DC Input Dimensions (WxDxH): 17 x 8.5 x 12.5 (inches) Weight: 28 lbs

Suitcase Compact (BG-400)

While being a generous 300 watts by itself, when paired with the C4 extension cab it produces a Massive 500 watts, allowing this compact power to serve all performance needs.

Power: 300W (RMS) Speaker: 4 x 5" PJB PiranhaType-B Controls: 2 x [Level Selector, 3 band EQ], Limiter w/on-off Switch, Master Volume Jacks: 2 Inputs, Tuner out, Preamp out, Headphone, D.I. Out, FX Send/Return, Ext. Speaker Out, AC-Input Dimensions (WxDxH): 14.2 x 12.4 x 13.4 (inches) Weight: 40 lbs

   * AVAILABLE COLORS

Double Four (BG-75)

The Double Four is at the pinnacle of micro bass combos. With the latest in driver design and digital amplifier technology this tiny bass combo continues to amaze with its great PJB bass tone.

Power: 70W (RMS) Speaker: 2 x 4" PJB Custom Controls: Level Selector, Volume, 3 band EQ, Aux-level Jacks: Input, Aux In, Headphone Out, Line Out Dimensions (WxDxH): 11 x 8 x 6.8 (inches) Weight: 8.8 lbs

Bass Cub (BG-100)

The Bass Cub- A dual channel preamp makes the Bass Cub the perfect combo for players to switch effortlessly from Electric to Upright Bass. With 100 watts of pure bass tone and two five-inch Neo Drivers this formidable mini sidekick is slightly larger than a shoebox.

Power: 100W (RMS) Speaker: 2 x 5" Neo-Power Type-A Controls: 2 x[Level Selector, 3 band EQ], Aux-level, Master Volume Jacks: 2 Inputs, Aux In, Tuner out, Headphone Dimensions (WxDxH): 12 x 10.8 x 7.8 (inches) Weight: 13.2 lbs

Roadcase (BG-800)

The Roadcase has the convenience of a combo but with output power you get from separate components. It has two channels: Channel one is dedicated for acoustic bass and channel two for electric.

Power:750W (RMS) Speaker: 12 x 5" Neo Power Controls: 2 x[Level Selector(Mute-Hi-Low), Volume, 6-Band EQ], Limiter w/on-off Switch, Master Volume Jacks: 2ch Input with Phantom Power, AUX In (Level), Headphone Out, Tuner Out, Line Out, XLR Balanced Out with Ground / Lift, Effect Send /Return, Compressor & Limiter On/ Off Dimensions (WxDxH): 15 x 18.9 x 36.2 (inches) Weight: 84 lbs

SPEAKER CABINETS

PJB's huge emphasis on research and development ensures that no other cabinets sound like a PJB cabinet.

Phil Jones Bass cabinets are precisely tuned using multiple loudspeaker analysis programs to reduce cone movement at the lowest frequencies, and to increase low frequency output.

PJB employs a full size anechoic chamber for acoustic measurements and a laser scanning Doppler interferometer to analyze cone movement in 3D across the whole audio spectrum.

HEADPHONES, MONITORS, & ACCESSORIES

PJB Headphones (H-850)

World's First Pair of Headphones Dedicated to Bass Players. Not all headphones are suitable for bass instruments. Many may sound good for casual listening, but plug them into the headphone jack of a bass amp and you will soon find their limitations.

PJB H-850 headphones are the first pair designed specifically to bridge the gap between high-quality music and deep and clear bass.

Ear Box (EB-001)

Near field bass monitor. Get your sound dialed in at every venue. The EAR-Box produces a near field sound that, when positioned close to you, will give you far greater clarity because it greatly increases the ratio of direct sound to the undesirable acoustics of the venue.

Carry Bag

Keep your CUB or CUB II in great condition with this durable gig bag. Designed for the storage and transport of BG-100 or AG-150 models.

Some of the most influential musicians in the world are using PJB products in the studio and on the road. Check out more artists at www.PJBworld.com

“Phil Jones Bass. It is unbelievable, very clean ,and very clear and direct on stage... and that’s my sound!”
