

Compact 4

b a s s s p e a k e r c a b

Today's bass players demand more portable rigs without any compromise in performance. The Compact 4 has a small foot print while providing the ultimate in high end audio performance. It is constructed from the finest materials including Baltic Birch plywood and a rigid internal bracing design that keeps cabinet coloration to its lowest. The four 5 inch "Piranha" drivers feature a ferrite magnet structure for superior dynamics, extended bass response, and punch/attack.

The Compact 4 reproduces effortlessly the true tone of any bass or player with unparalleled sound that will become more prominent and inspiring to you, your band, and your audience. Physically, the Compact 4 has unmatched flexibility and portability and is capable of being used alone or in stacked multiples.
